

Cargill at a glance

Our purpose

We exist to nourish the world in a safe, responsible and sustainable way.

Every day, we connect farmers with markets, customers with ingredients, and people and animals with the food they need to *thrive*. We combine our experience with new technologies and insights to serve as a trusted partner for food, agriculture, financial and industrial customers in more than 125 countries. With a focus on growing alongside our partners over the long term, on average we reinvest 80% of cash flow from operations back into our business.
